Section 61060 of the Government Code lists several powers that a CSD may exercise “necessary to carry out the purposes and intent of this division [i.e. the CSD principal act].” Section 61060(d) provides that a CSD has the power to acquire and lease property. However, doing so must be for the “benefit of the district”. The BCCSD purchased the property for it to be used as part of its solid waste disposal powers, clearly benefitting the district. We are doubtful that leasing a portion of the property to a private entity, the HOA, for a non-CSD use can be considered as necessary to carry out the purpose of the CSD principal act or a benefit to the district.

Attn: Marc J. Nolan, Senior Asst. Attorney-General
Opinions Unit, DOJ

Low Angeles, CA 90013

Re: Request for Opinion re: Bell Canyon Community Service District's Authorized Powers

Dear Mr. Nolan:

I am writing on behalf of the Bell Canyon Community Service District ("District") in regard to its authorized powers under the Community Services District Law, Government Code Section 61000, *et seq.* ("CSD Law"). We seek a legal opinion from the California Attorney-General's office on the District's authorized power to lease a portion of District-owned vacant, unimproved property to a homeowner's association ("HOA") located within its jurisdiction for the purpose of the HOA's (i) storage of certain construction materials and equipment, and (ii) maintenance of a small pre-existing bus stop used to drop off and pick up children to and from the school.

The District is located in an unincorporated area of eastern Ventura County, adjacent to the Los Angeles County boundary (near West Hills), and is geographically isolated from other communities. The District was formed in 1984 under the CSD Law to provide some public services for the Bell Canyon community, which has a population of approximately 2,109 residents. When it was formed in 1984, the District was authorized to provide a variety of services to the community. It is important to note that the physical boundaries and jurisdiction of the District are coterminous with the physical boundaries and jurisdiction of the HOA, which is private property located within a fully gated community. ***In other words, besides the small publicly accessible area of the public street leading up to the gated community, every portion of the District's boundaries is located within the HOA's boundaries and is privately owned.*** Other than the public street leading up to the gated community, there is no portion of the District's boundaries that is located outside of the HOA's boundaries.

In 2005, the local agency formation commission ("LAFCo") law was amended to require various LAFCos to review each special district's services. Subsequently in 2007, the District applied to Ventura County LAFCo for approval of the exercise of certain latent powers, which were approved. Thus, as of 2007 it is undisputed by the District and Ventura County LAFCo that the District is authorized to perform the following services:

- Rubbish, recycling and greenwaste removal;
- Enhanced traffic patrol under the provisions of a contract with the California Highway Patrol;
- Emergency medical (advanced life support) services under the provisions of a contract with the City of Los Angeles Fire Department;
- Organization, promotion, conducting, and advertisement of community recreation programs;
- Security services, including but not limited to burglar and fire alarm services to protect lives and property; and
- Graffiti abatement.

The above authorized services have not changed since 2007 and represent a complete list of the District's authorized services ("2007 Authorized Services").

In 2008, the County of Ventura granted to the BCCSD an approximately half-acre parcel ("2008 Parcel") that contains a pre-existing school bus stop where children are picked up and dropped off by a school bus. Ventura County LAFCo informed the District that it would not utilize District funds to operate or maintain that school bus stop, because the District does not have latent powers for transportation services. The District informed Ventura County LAFCo that the HOA would operate and maintain the bus stop.

In 2022, the District underwent a municipal services review ("MSR") by the Ventura County LAFCo. The MSR concluded again, among other things, that the District has no latent powers for transportation services and confirmed that the District would not operate or maintain the school bus stop. The District again confirmed that the HOA in fact maintains and operates that school bus stop on the 2008 Parcel. Ventura County LAFCo approved the HOA's maintenance and operation of the school bus stop.

In addition, in 2023, the District purchased from the Triunfo Water & Sanitation District a small parcel of vacant, unimproved property for its general purposes ("2023 Parcel"). The 2023 Parcel contains a pre-existing maintenance yard that contains the HOA's construction materials and equipment. The District has attempted on several occasions to enter into a lease with the HOA for the latter to rent that portion of the 2023 parcel for a maintenance yard.

Several weeks ago, the District inquired with the Ventura County LAFCo whether it is permitted to enter into a lease with the HOA for the HOA to continue using a portion of the 2023 parcel to store its construction materials and equipment. Ventura County LAFCo then responded that the District has no authority to enter into a lease with the HOA for the HOA to maintain and operate the storage of its construction materials or equipment on the 2023 Parcel, basing its reason on

Office of the CA Attorney-General
November 18, 2024
Page 3

the fact that the District does not have authority to under its general or latent powers to lease any portion of the 2023 Parcel for HOA storage purposes, and that the only uses the District is authorized to perform are those enumerated in the 2007 Authorized Services.

Thus, there seems to be conflicting opinions from Ventura County LAFCo regarding the District's powers: on one hand, the District does not have transportation powers and MUST authorize the HOA to maintain and operate the school bus stop at the 2008 Parcel via a lease, while on the other hand the District does not have latent or other powers to lease a portion of the 2023 Parcel to the HOA for the HOA's storage of construction equipment. ***Accordingly, the District seeks a legal opinion from the California Attorney-General's office regarding whether the District has the legal authority to (i) lease a portion of the 2008 Parcel to the HOA for the HOA to maintain and operate the school bus stop, and (ii) lease a portion of the 2023 Parcel to the HOA for the HOA to maintain storage for its construction material and equipment.***

Thank you for your attention to the matter. If you need further information or would like additional clarification, please contact me at the information above.

Sincerely,

ALESHIRE & WYNDER, LLP
